EUROPEAN GEMOLOGICAL LABORATORY™
EGL USA

FEBRUARY 15, 2010 Los Angeles

This document was produced with the following security measures:
Special document paper, ink screens, holographic security seal, tamperproof background design, EGL USA embossing and other safety features, custom designed for EGL USA.

The characteristics of the diamond in this report were based on the information gained from utilizing a variety of gem testing instruments. The following instruments were used as required to complete our examination: 10x magnification with a fully corrected loupe and binocular microscope, millimeter gauge, computer aided non-contact measuring device, spectroscopy system, Proportometric electronic balance, master color comparison diamonds, ring sizer and three-wave ultraviolet light sources, fiber optic illuminator, daylight balanced lighting and other instruments. The diagram is an approximate representation of the type and relative position of internal and external characteristics. Red symbols indicate internal characteristics and green symbols indicate external characteristics.

ORIGINAL This report is supplied at the request of the customer and is issued for his exclusive use. The report expresses an opinion at the time of examination of the stone. It is not a guarantee, warranty or approval of any kind. EGL USA has made no representation or warranty regarding this report or the diamond described. Any diamond grading is not an exact science. This report represents only the best professional opinion of this company. EGL USA is in no way responsible for differences which could occur by repeated expertise and/or use of other standards, names, methods or criteria other than those chosen by EGL USA.
